

# Environmental Report

## Environmental Management

DENSO's Vision / DENSO EcoVision	45
Management of environmental factors for products	47
Environmental management in production	48
Environmental risk management	49
Environmental education / Environmental accounting	50
Overview of environmental impact	51
Fourth phase of the Environmental Action Plan	52

## Prevention of Global Warming

Contributing to CO <sub>2</sub> emission reductions in products	53
Contributing to the reduction of CO <sub>2</sub> emissions in production activities	55

## Resource Recycling

Effective use of resources by products	61
Effective use of resources in production	62

## Control and Reduction of Environmentally Hazardous Substances

Controlling and reducing chemical substances in products	63
Controlling and reducing chemical substances during production	64

## Cooperation with Society

Environmental communication	66
Biodiversity initiatives	67

### DENSO Environmental Symbol Mark

DENSO adopted this Environmental Symbol Mark in July 1995 for use in pamphlets introducing environmental protection activities as well as at tradeshows and other events. Designed by one of DENSO's in-house designers, the mark expresses the idea that the Earth has a heart with a lively beat and coexists with humankind and nature.
